

Unlocking home energy potential

Plentify offers intelligent ways to shift appliance energy usage to be more efficient without the guesswork.

Support hours available Monday – Friday 9am – 5pm

support@plentify.io

Why homeowners love us

Control

The Plentify App empowers them to monitor and control their solar system directly from their phone.

Savings

Homeowners can make better use of their battery, eliminating wasted energy, and heating their geyser with the sun.

Intelligence

Homeowners get easy-to-understand insights and info on how to upgrade their systems.

Why installers choose Plentify

Competitive advantage

Deliver smarter, optimised solutions that maximise your customers' solar investment, setting you apart from competitors.

Customer satisfaction

Receive early alerts for potential customer issues in order to provide proactive support.

Opportunities for upgrades

Use built-in diagnostics to identify system upgrades and recommend enhancements, helping your customers maximise their solar investment.
